

LAS LONDON
ARRHYTHMIA
SUMMIT

FRIDAY 14 JUNE 2024

THE KING'S FUND, LONDON

Our vision is to provide high-quality arrhythmia and pacing education in a succinct one-day format in the UK. The talks are short and focused with key take-home messages highlighted in a retainable manner.

Some presentations will have provocative titles to enable drilling down to key clinical questions that we often ask in routine patient care.

There will be no-holds-barred debates with heavyweights in the arrhythmia field tackling challenging clinical scenarios and questions. There is plenty of opportunity for audience interaction with our prestigious faculty through the multiple **Ask the Expert** sessions.
